

NUCL-EU 2020 PARTNER SEARCH TOOL

The aim of the Partner Search Tool is to **encourage new collaborations and especially increase the potential for researchers and SMEs to discover common interests and to join or form a consortium.** In order to provide enhanced networking and matchmaking services to potential applicants, NUCL-EU 2020 will provide an online tool that supports potential applicants of the EURATOM Calls in finding potential project partners. Partner Search Tool is available from the C-ENERGY 2020 website.

WHAT IS NUCL-EU 2020?

NUCL-EU 2020 is a project funded by the European Commission under the Euratom Programme of Horizon 2020. The general objective of the project is reinforcing the network of Horizon 2020 National Contact Points (NCPs) and third country contacts in the Euratom Programme.

It aims at creating an efficient, pro-active and sustainable Network for stimulating closer cooperation among all the Euratom National Contact Points.

The project has two specific objectives:

- the reinforcement of the Euratom NCP Network
- the enhancement of Member States and Third Countries (involvement) participation.

WHAT ARE EURATOM NCPs?

The Euratom NCPs are all the National Contact Points officially appointed by an EU Member State and Horizon 2020 Associated Country and recognized by the European Commission.

National Contact Points (NCPs) play a crucial role in the Framework Programme as **providers of information and assistance to potential participants (applicants) of new projects and beneficiaries in on-going projects.**

WHAT CAN NUCL-EU 2020 DO FOR EURATOM NCP NETWORK?

- NUCL-EU 2020 will organize **Training (on-site and virtual) sessions and twinnings** for the NCPs in order to enhance their service level for the researchers in the field of nuclear fission and radiation protection.
- Update on **EU funding opportunities, important events, policy updates and success stories** in the Euratom field throughout our project website, semesterly e-newsletter and e-mail alerts.
- **Exchange your information, consolidate your knowledge and help your clients to find the appropriate partners** thanks to the cooperation with the other relevant Horizon 2020 NCP networks.

WHAT CAN NUCL-EU 2020 DO FOR RESEARCHERS AND ENTREPRENEURS?

- NUCL-EU 2020 will organize **transnational workshops for research community and training for stakeholders** to give them information and advice about Euratom Programme.
- Access to up to date **information on international/national events and Info days** in the sector of nuclear fission and radiation protection published on NUCL-EU 2020 website.
- Offer guidance in **identifying relevant topics, proposal pre-screening, submission process and administrative procedures & legal issues.**
- Assist you in your **search for partners** through the NCP network, partnering events & other available tools.
- Access to the **list of Euratom NCPs.**
